SUMMARY

Bilingual Front End web developer leveraging a media arts and music technology background to build a more intuitive user experience on the web. Recently earned a certificate in Full Stack Development from The Coding Bootcamp at UT Austin with study focus in JavaScript, CSS, React, Bootstrap, Node.js, SQL, MERN stack and responsive web design.

Known as a creative problem solver and team player curious about all things. Fosters a daily practice in integrating technologies to best engage audiences for an impactful and enriching user experience. Seeking and excited to leverage these skills as part of a fast-paced, quality-driven team to build better experiences.

SKILLS

Languages : HTML, CSS, Javascript
Tools: Git, Heroku
Databases: MySQL, MongoDB, NoSQL

Frameworks: Bootstrap, Bulma, Handlebars, React
Stacks: MERN

PROJECTS

Crockett Printing (MERN Stack; MongoDB, Express, React, Node)
Live: https://bit.ly/3g93s97: | Github: https://bit.ly/3r513Cx
This is a MERN stack single-page application complete with performant JavaScript, NoSQL databases, React, GraphQL APIs, concurrent servers on Mern, and authentication for the client, Crockett Printing.
- Used React components to create a clean and mobile responsive online print shop.
- Integrated the foundation of a messaging system for future client and print shop customer interactions.
- Maintained repo documentation and managed Heroku deployment for MVP.

Purple Minutes Styling (Bootstrap, Handlebars, MVC, Node, Express, MySQL, Sequelize, Insomnia, Heroku)
Live: https://bit.ly/3KUeDjU: | Github: https://bit.ly/3HcJaHI
This is an MVC architecture one stop portfolio for client Purple Minutes Styling where potential tv and film employers can see their wardrobe and styling work.
- Set front end calls and back end routes for database item viewing using MySQL, Sequelize, and Insomnia
- Worked one on one with client to develop portfolio concept and communicate on progress.
- Project Managed and worked with a team of junior developers on the MVP for the website.

Covid Tourism Information Center (CSS, HTML, Javascript, Bulma, Open Weather API, Covid ActNow API)
Live: https://bit.ly/3yEHBPj: | Github: https://bit.ly/3JfCvOv
This is a one stop webpage for travelers where access to weather and covid information for various states is possible.
- Implemented the Open Weather API and functional rendering.
- Created the error handling functionality & design.
- Maintained Read Me documentation.

Isabel Ramirez | Portfolio (REACT, Bootstrap, Amazon S3)
Live: https://bit.ly/3H8JEyD: | Github: https://bit.ly/35z0AAj
This is Isabel Ramirez's single page programming portfolio using React and Bootstrap.
- Used React components to create a clean and mobile responsive web portfolio.

- Integrated Bootstrap and Google Fonts to style and design.
- Implemented Amazon S3 technology for media hosting.

EXPERIENCE

Corpus Quality SME | *Cognizant for YouTube Music* | 11 2019 - Present | Austin, TX 78703

- Adapt problem solving muscles while balancing team resources and client needs resulting in a highly motivated team and positive cross collaboration.
- Delivered high quality Product Data Analysis projects on a consistent basis and significantly improved YouTube Music's user experience and subscription numbers.
- Delivered weekly Quality Assurance Assessments of agents' work in an organized and feedback focused manner resulting in an informed and improvement oriented team.

Runner Experience Representative | *Favor* | 06 2017 - 11 2019 | Austin, TX 78701
- Problem solved on the spot issues between restaurant, customer, and "Runner" with interdepartmental collaboration resulting in happy customers with warm, freshly made food.
- Initiated in-house projects resulting in organized approaches to daily department problems reducing employee turnover.
